

24 Hour Medical Advice

How it works:

Activate the speed dial number, which is easily loaded onto your mobile phone, and participate in a simple telephonic identification process.

Your initial telephonic access will be to a qualified nurse. You will receive immediate access to telephonic advice from a doctor if the situation requires more expert advice.

The benefits:

You can immediately respond to the appropriate medical advice. If time is of the essence, a telephone call may be more effective than going to a doctor, as there is no travelling required. Also, cash or medical aid benefits are not required to access advice, it's paid for by Howler Monkey.

HiV/STD Preventative Drugs

How it works:

Activate the speed dial number, which is easily loaded onto your mobile phone, and participate in a simple telephonic identification process. Explain the situation/event.

The service provider will facilitate appropriate treatment protocols and the administration of HIV/STD preventative medication within 5 (five) hours of your phone call. The service provider will also facilitate testing, counselling and 28 days of anti-retroviral treatment.

The benefits:

Howler Monkey covers the cost for treatment per incident, for the 28 day benefit period. Also, you get the appropriate treatment within 5 hours of your call anywhere in SA.

Emergency Network Facility

How it works:

Pushing the activation button on your Android or Windows smart phone will cause it to send an sms to your 8 personal emergency network contacts. Your smart phone will then go into “black-out” mode whilst active. The tracking facility will update the Smartphone’s exact position every 60 seconds.

The SMS will contain the following information:

- Member’s name
 - Time of emergency
 - Member’s personal emergency network contact list with names and relationships
 - Links to Geo-map and exact GPS location of smart phone and tracking facility
- Member has to de-activate tracker facility

While all reasonable care has been taken in compiling this brochure, we have relied upon the accuracy and completeness of the information made available to us and subsequently cannot accept any liability for any errors or omissions that may be contained herein. PLEASE NOTE: The Howler Monkey Benefit Terms and Conditions apply at all times and are available on the website.

<http://howlermonkey.co.za>

The benefits:

Your personal emergency network can immediately respond once they have received the sms alert. There is no time delay in phoning one person, who for any number of reasons may not answer. Also, there is no time delay trying to explain your situation or whereabouts. Being unable to talk or not make noise for any reason does not prevent you from using your personal emergency network facility. Your Howler Monkey is as close to you as you keep your mobile phone.

- Smart phone and/or network dependent
- Airtime and data dependent
- Apple application coming SOON

Loading Howler Monkey

Complete the following instructions:

Step 1

Install the Howler Monkey app, found in your smart phone’s play store
